## Bright & Beautiful Curtain Fold Card

### Supplies Needed:

Night of Navy ink  
Night of Navy cardstock (base)  
Basic White cardstock  
Shimmer vellum  
Bright & Beautiful designer series paper  
Zoo Crew designer series paper  
Sentiment stamp

All That dies  
Large scallop circle punch  
2 3/8" punch  
Adhesive-backed sequins  
Dimensionals  
Adhesives

### General Measurements:

Card base

Bright & Beautiful DSP

Inside sentiment panel

4 1/4" x 11" Night of Navy cardstock  
scored at 3 3/8" and 7 5/8"

3 1/8" x 5 1/4" (x2)

2 1/2" x 4"

4" x 5 1/4" Basic White cardstock

## Directions:

1. Cut Night of Navy cardstock 4 ¼" x 11". Score at 3 3/8" and 7 5/8". When folded, the center panel should be 4 ¼" x 5 ½".
2. With the long edge of the cardstock down, make a pencil mark at 3 ¾" on the left and make a pencil mark at 1" from the edge on the bottom. Repeat on the right side. The marks should be mirrors on each side.
3. Cut diagonally from the 1" mark to the 3 ¾" mark on each side of the card. Each flap should be an identical mirror of the other and will overlap when folded.
4. Cut Basic White cardstock 4" x 5 ¼" and adhere to inside of card.
5. Select your Bright & Beautiful designer series paper (DSP) patterns.
6. Cut 2 a ¾" x 4" strip of DSP and a 2" x 4" strip of DSP. Adhere the smaller strip behind the larger so that about ½" is visible at the top. Adhere this DSP panel at the bottom of the white cardstock inside the card.
7. Cut 2 pieces of DSP 3 1/8" x 5 ¼". Decide which piece is the left/right panel when the card is closed.
8. With the DSP face up as it will appear on the card front, on the left panel, make a pencil mark 1" from the top right corner and another mark 1 5/8" up from the bottom right corner. Cut on the diagonal between the two pencil marks. The DSP should have a border around it when placed on the card front. Adhere to the left panel of the card front.
9. With the DSP face up as it will appear on the card front, on the right panel, make a pencil mark 1" from the top left corner and another mark 1 5/8" up from the bottom left corner. Cut on the diagonal between the two pencil marks. The DSP should have a border around it when placed on the card front. Adhere to the right panel of the card front.
10. Using the circle punch, select and punch a character from the Zoo Crew DSP.
11. Using the scallop circle, punch a scalloped circle from shimmer vellum.
12. Using the square from the All That die set, diecut from shimmer vellum. Stamp a sentiment in the center. All the ink to dry and then adhere in the center of the DSP panel on the inside of the card.
13. Embellish the card with Wink of Stella and sequins as desired.
