Irresistible Barn Fold Card

Supplies Needed:

Flirty Flamingo ink
Calypso Coral cardstock (base)
Basic White cardstock
Hello Irresistible designer series paper
Deckled Rectangles dies
Bold Bouquet stamps

Flirty Flamingo metallic ribbon
Adhesive-backed sequins
Doubled-sided tear-off tape
Dimensionals
Adhesives

General Measurements:

Card base

Hello Irresistible DSP

Outside sentiment

4 1/4" x 11" Calypso Coral cardstock
scored at 2 3/4" from each end
2 1/2" x 4" (x2) front side panel mats
2 1/4" x 3 3/4" (x2) front side panels
2" x 3 1/4" sentiment panel mat
3 3/4" x 5" inside center panel
1 3/4" x 3" Basic White cardstock

Directions:

1. Cut an 8 ½"x 11" Calypso Coral cardstock piece in half on the short edge for your card base.
2. Score the card base at 2 ¾" on each end of the long edge, giving you a 5 ½" panel in the center when the smaller panels are folded.
3. Cut the DSP pieces for the outside folds of the card and affix to the outside of each card panel.
4. Diecut the inside center panel from DSP using the largest Deckled Rectangle die and affix to the inside of the card.
5. Diecut the sentiment mat from DSP using a larger Deckled Rectangle die.
6. Diecut the sentiment panel from Basic White using a smaller Deckled Rectangle die.
7. Stamp your preferred sentiment on the sentiment panel.
8. Affix the sentiment panel to the DSP mat.
9. Center the sentiment panel on the outside of the card. Place dimensionals on the back of the left side of the sentiment panel and adhere to the front of the card. Only the left side of the sentiment panel should be affixed to the card.
10. Next determine where you would like to place the ribbon.
11. And then tear off a 1" strip of double-sided tape and affix to the bottom left of the card. Tear off another 1" strip of double-sided tape and affix to the top right of the card directly in line with the strip on the bottom. There should be a gap in between the two pieces of tape approximately 1 ½" apart.
12. You will wrap the ribbon around the inside of the card. Each end of the ribbon should meet on the outside of the card after passing over the strips of tape and be long enough to allow you to tie a bow. TIP: I myself approximately 4" on each end of the ribbon. Once the bow was tied to my liking, I cut off the extra to leave shorter tails on each end.
13. Add sequins as desired.
